Wall Street Sleepy.

New York, June 24.—Wall street for the resent seems as near being asleep as it is ossible for the moner center of the contipossible for the moner center of the conti-nent to be, and the stock market reflects the uncertainties in the situation by the most intense dullness in transactions and stagnation in fluctuation. The close was dull and rather heavy generally, at a shade under yesterday's closing. The railroad, government and state bonds entirely neglected.

FOLEY AND BUCHEL

ATTACHED TO BREWSTER FOR SURVEYING PURPOSES.

The Surveyor of Presidio County Unau thorized to Survey in Those Coun-

Special to the Gazette. Austin, Tex., June 24.—The following

ondence explains itself: AUSTIN, TEX., June 16, 1891.

DEAR SIR—As will be seen by the inclosed letter of Maddox Bros. & Anderson, this department has refused to issue patents to land surveyed by the surveyor of Presidio county outside of his county for the reasons stated in the inclosed letter. It is claimed by these gentlemen that inasmuch as neither of the new counties created out of the territory of Presidio county, has organized as a of the new counties created out of the terri-tory of Presidio county, has organized as a separate land district, that the surveyor of Presidio county is the proper surveyor of these counties until they organize as sepa-rate land districts; and they claim that article 3822. Revised Statutes, authorizes the county surveyor of Presidio county to make surveys in these counties. This I re-spectfully deny, and insist that article 3829 has no application in cases where territory is taken from an old county to form a new is taken from an old county to form a new one, but that article refers to a county newly organized, which had before formed a part of a larger district. Until such county stablishes her boundaries as required by act of 1879, page 137—It remains a part of the land district to which it was formerly attached by law. In case a county which has formed a part of a land district organizes, its records are procured as provid by article 8856, Sayles' civil statutes. I statuthermore that, when a county which furthermore that, when a county which formed a part of a larger land district, organizes and selects a surveyor, who gives bond and takes the oath prescribed by law and procures the maps, etc., of his county, as required by article 3854, Revised Statutes, after that time no surveyor, other than

after that time no surveyor, other than the one so selected and qualified, can lawfully survey within the limits of such county. In support of this proposition see articles 3854 and 3855—latter part of article 3849, and that of article 3822. Revised Statutes. The latter portion of article 3849 reads as follows: "Whenever any county may elect a county surveyor who shall have qualified and given bond and who shall have ified and given bond, and who shall have procured the maps and records required by law, the district surveyor, within whose district such county may have been or may be at the time, and his deputy, shall cease be at the time, and his deputy, shall cease to exercise any official acts within the same." For election and qualification of surveyors, see articles 3834 and 3835, Re-vised Statutes. In February, 1887, Brew-ster county organized and elected her offister county organized and elected her offi-cors; the surveyor has procured the necessa-ry records and has given bond and taken the oath prescribed by law. It is not thought that the surveyor of Presidio county can lawfully survey within Brewster county since that county has elected a surveyor. The effect of the proposition taken by Maddox Bros. & Anderson is that the act of the legislature of 1887, which created out of the territory of Presidio county the counties the territory of Presidio county the countles of Jeff Davis, Brewster, Buchel and Foley, created Presidio land district and attached each of the newly created counties to Pre-sidio county for surveying purposes. This proposition finds no sanction in law. All land districts are created by the legislature. Ise Sayles Civ. Stat., Arts 3823 to 3833m.]
It is doubtless true that until the inhabitants of the territory embraced within the new counties created out of the territory of Presidio county exercised the privilege which had been granted them by the legislature by organizing their county governwhich had been granted them by the legislature by organizing their county government, they remained subject to the dominion of the government of Presidio county, and the acts of the officers of that county, done in the performance of their official duties within either of said new counties prior to their organization, would be legal and valid. [See Reeves County vs. Pecos County, 69 Tex., 177.] It follows then that the converse of this proposition is true, and when either

Tex., 177.] It follows then that the converse of this proposition is true, and when either of the new counties exercised the privilege granted by the legislature by organizing their county government, they would no longer remain subject to the dominion of the government of Presidio county, and the acts of the officers of that county, done in the performance of their official duties within either of the new counties aforesaid, after its organization, would be illegal and void. Of the new counties created out of the territory formerly embraced within the boundaries of Presidio county—Jeff Davis and Brewster have acquired a corporate ex-

counties of Buchel and Foley to Brewster county for surveying purposes. This law declares that the surveyor of Presidio county shall not make surveys in either Foley or Buchel county, or what is equivalent thereto, that the surveyor of Brewster county is alone authorized so to do. In my opinion any surveys make in either of these counties by the surveyor of Presidio county, after they were by law attached to Brewster county, is a usurpation of authority on the part of that officer and the surveys so made by him are in the teeth of a law forbidding them and are null and void. In cases where new counties are created out of the territory of anoid county, the records of the new counties are procured as provided by article 3845, Revised Statute. And whatever may be the authority of the surveyor to survey within the newly created counties before they organized their county government, this right cannot extend beyond that time. The counties of Jeff Davis and Brewster have organized their county governments and have thereby deprived the survey within their boundaries. The legislature attached the counties of Foley and Buchel to Brewster for surveying purposes, and thereby as effectually deprived that officer of the right to survey in them as if they had organized their county governments. It is not the law that surveys made by a county surveyor before his county organizes as a land district are void, but the law clearly is that surveys made by surveyors outside of his county or district are void. [Cox vs. Railway, 68 Tex., 226; Sayles' Real Estate laws, art. 486 and 300.]

I have made the foregoing statement in support of my ruling regarding the surveys in question, and at the request of Messrs. Maddox Bros. & Anderson. I respectfully submit the matter to you for your opinion. Yours very respectfully.

[Signed] W. L. McGaugher, Commissioner.

CENERAL LAND OFFICE. AUSTIN. TEX., June 22, 1891.

Hon W. L. McGaughey, Commissioner General Land Office:

Dear Sir.—Your letter of June 16, inclosing a letter from Maddox Bros. & Anderson of date June 5, has been received. After a careful perusal of your letter and the authorities cited, you are respectfuly advised that in my judgment the ruling made by you, under the facts stated, that the surveyor of Presidio county is unauthorized to survey in Foley and Buchel counties, is correct. Art. 3822, R. S., is thought not to apply to such a case, for the reasons stated by you. Moreover, the act of March 22, 1889, General Laws, page 83, attaches the counties of Foley and Buchel to the county of Brewster for surveying purposes, and repeals all laws and parts of laws in conflict therewith. Very respectfully, [Signed] W. J. J. Smith. Office Assistant Attorney-General.
